Note: These links use Youtube to display video. To work properly, only one Youtube can be run at a time. If you click on a link when another link is still running or open in a browser Tab, the timing doesn't always work.

Each of these **LiveAgenda** links should start the video at precisely the point where someone started talking or an Agenda item began. If it does not, make sure you've closed any previous **LiveAgenda** links or Youtube windows or tabs. We don't have any control over the way Youtube videos work.

The Closed Captioning button is at the bottom right of the Youtube window. It is automatically produced by Google/Youtube over a period of several days and is about 95% accurate.
